

DEFENCE AND SPACE

A330 MRTT+

The most successful
Tanker now with a plus

AIRBUS

A330 MRTT+ The most successful Tanker with a plus

The most capable new generation tanker and transport aircraft

- The most fuel, passengers, cargo and range of any new generation tanker transport
- Less sorties and flight hours to meet the same operational requirement
- Combat proven, fully interoperable
- Top-class reliability and economies of scale benefits due to the commonality with the A330 and the global presence of the civil platform

A330 MRTT+

The Natural Evolution of the A330 MRTT, with a Plus:

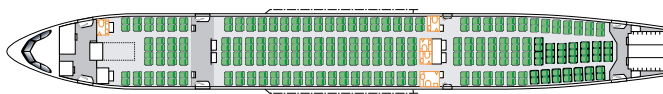

- Optimised wing aerodynamics
- New Cabin Design, more comfortable
- Latest Generation Propulsion, Rolls Royce Trent 7000
- New nacelle & pylon design, with reduced drag and noise
- New Weight Variant (242 tonnes MTOW)
- Up to 8% less fuel burn, providing more fuel offload, more range or savings

TECHNICAL DATA

General dimensions		
Overall length	58.80 m	193 ft
Wing span	64 m	210 ft
Height	17.40 m	57 ft
Weights		
Max. Take-Off Weight	242 000 kg	533 000 lb
Max. Landing Weight	186 000 kg	410 000 lb
Max. Payload	45 000 kg	99 000 lb
50% more than competitors		
AAR Performance		
Fuel Offload of 100k lbs of fuel at	4000 km	2160 nm

True multi-role capabilities

The A330 MRTT+ provides unmatched flexibility allowing to perform air-to-air refuelling, VIP, personnel and cargo transportation, and aeromedical evacuations during the same mission without any reconfiguration.

MAIN DECK / Airline Configuration:
280 passengers as baseline, up to 300 passengers

LOWER DECK / Cargo Transport:
Up to 8 military pallets and 2 containers or 27 LD3 civil containers

The A330 MRTT+ is a force multiplier, supporting all types of regional operations and long range deployments.

PAYLOAD / RANGE (at full PAX cabin configuration)

- Transport of 265 Troops / Payload 35 tonnes / Over 5200 nm (9630 km)
- Transport of 250 Evacuees / Payload 20 tonnes / Over 6700 nm (12 410 km)
- Transport of 10 tonnes / Over 7700 nm (14 260 km)

EXCLUDING U.S.

• MORE OF EVERYTHING.

- The A330 MRTT+ is the most capable tanker and transport aircraft
 - 111 tonnes of fuel
 - 280 (up to 300) passengers / troops
 - Up to 45 tonnes of payload

• COMBAT PROVEN & INTEROPERABLE

- Over 65 A330 MRTTs in service
- More than 350 000 flight hours
- Mission success rate of over 98%

• DERIVED FROM SUCCESS.

- Based on the highly successful A330 widebody airliner
 - Over 1950 A330 sold, more than 1450 in service
 - Exceeding 99% operational reliability
 - Continuous evolution, focused on cost efficiency
